 - Must be paid in full BEFORE contact lenses can be ordered
- ** This fee is non-refundable

Contact Lens Materials

- Fee for your scleral lenses
- Must be paid in full BEFORE the contact lenses are ordered
- Replacement policy: Damaged, lost or back up lenses can be purchased at discounted rate (with a valid contact lens prescription—2 years or less).
- Return policy: Within 90 days of take home date: 50% of contact lens fee
91+ days after take home date: No refund
- Your lenses are special ordered for you. They must be fit in office within 30 days of notification or they will be returned. A \$25 reorder fee will be charged if you decide to reorder them once they have been returned.

I have read and agree to the above terms and payment schedule.

I understand the importance of following the instructions and advice given to me by my optometrist regarding wear and care of scleral lenses.

I understand that following the completion of my scleral lens fitting, and while I am still wearing scleral lenses, I need to see my optometrist every 6 months for a review to ensure my eyes are still healthy and the lenses are working correctly.

I understand that during the early stages of the treatment my vision might not be perfect and I might require supplementary glasses to see clearly.

- I understand that even if I follow the instructions of my optometrist in regards to contact lens hygiene and wearing instructions, there is still some risk of adverse eye health events, including corneal infections that in extreme cases might lead to the loss of vision.

- I understand that the cost of lenses may change in the future.

- I understand that scleral lenses have their limitations and the quality of vision they provide might be limited by what is possible given the condition of my eye as well as the availability of lens designs and technology.

- I understand that if the lenses need to be changed in the future (after 90 days and the fit has been completed for best vision and fit), there will be a new charge for the lens fitting and lenses ordered. For example, if the lens needs to be significantly redesigned it may be charged up to 100% of the original fitting fee, but if the only change that needs to be made is the prescription to the same lens, this will be a discounted fee, etc. Cost will be commensurate with the amount of change that needs to be made and can only be determined on a case by case basis.

If we are able to bill your insurance for this service, we will still collect full amount up front and reimburse if insurance pays.

Payment is due at first appointment and in full, no payment plans are available although, we do accept Care Credit.
